Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims

1. (Currently Amended) A disposable garment having a garment length, the disposable garment comprising:

an outer layer;

an elastic inner layer, wherein the elastic inner layer has an elastic inner layer perimeter and wherein the elastic inner layer defines an opening located in an internal position to the elastic inner layer perimeter and wherein the opening is a slit or aperture through a bodyfacing surface of the elastic inner layer and wherein the opening has a length that is 10% to 90% of the garment length;

wherein the elastic inner layer perimeter is bonded to the outer layer; and

wherein the outer layer and the elastic inner layer form a front waist region, a back waist region and a crotch region, wherein the crotch region connects the front waist region and the back waist region and the elastic inner layer has a width at a narrowest portion of the crotch region of equal to or less than 4 inches.

2. (original) The disposable garment of claim 1, wherein the outer layer has an outer layer perimeter and the elastic inner layer perimeter is bonded to the outer layer perimeter.

3. (Canceled)

4. (original) The disposable garment of claim 1, wherein the outer layer is elastic.

5-6. (Canceled)

7. (original) The disposable garment of claim 1, wherein the outer layer has one or more pleats.

K-C Docket No. 19,288
Serial No. 10/749,366
Response to Office Action Dated October 18, 2007

8-9. (Canceled)

10. (original) The disposable garment of claim 1, wherein the elastic inner layer is elastic in both a longitudinal direction and a lateral direction of the disposable garment.

11. (original) The disposable garment of claim 1, wherein the elastic inner layer is liquid impermeable.

12-14. (Canceled)

15. (original) The disposable garment of claim 1, wherein the disposable garment has a longitudinal direction wherein the outer layer has a length in the longitudinal direction, the elastic inner layer has a length in the longitudinal direction and the outer layer length is greater than the elastic inner layer length.

16. (original) The disposable garment of claim 1, wherein the disposable garment has a lateral direction wherein the outer layer has a width in the lateral direction, the elastic inner layer has a width in the lateral direction and the outer layer width is greater than the elastic inner layer width.

17. (Canceled)

18. (original) The disposable garment of claim 1, wherein the disposable garment has a longitudinal direction and wherein the narrowest portion of the crotch region is toward the front waist region from a longitudinal centerline.

19. (Canceled)

20. (Currently Amended) A disposable garment having a garment length, the disposable garment comprising:

K-C Docket No. 19,288

Serial No. 10/749,366

Response to Office Action Dated October 18, 2007

a stretchable outer layer;

an elastic inner layer, wherein the elastic inner layer has an elastic inner layer perimeter and wherein the elastic inner layer defines an opening located in an internal position to the elastic inner layer perimeter and wherein the opening is a slit or aperture through a bodyfacing surface of the elastic inner layer layer and wherein the opening has a length that is 10% to 90% of the garment length;

wherein the elastic inner layer perimeter is bonded to the stretchable outer layer; and wherein the elastic inner layer has an elastic inner layer retraction value and the stretchable outer layer has a stretchable outer layer retraction value that is less than the elastic inner layer retraction value; and

wherein the stretchable outer layer and the elastic inner layer form a front waist region, a back waist region and a crotch region, wherein the crotch region connects the front waist region and the back waist region and the elastic inner layer has a width at a narrowest portion of the crotch region of equal to or less than 4 inches.

21. (original) The disposable garment of claim 20, wherein the stretchable outer layer has a stretchable outer layer perimeter and the elastic inner layer perimeter is bonded to the stretchable outer layer perimeter.

22. (Canceled)

23. (original) The disposable garment of claim 20, wherein the stretchable outer layer is elastic.

24-27. (Canceled)

28. (original) The disposable garment of claim 20, wherein the elastic inner layer is elastic in both a longitudinal direction and a lateral direction of the disposable garment.

29. (original) The disposable garment of claim 20, wherein the elastic inner layer is liquid impermeable.

K-C Docket No. 19,288
Serial No. 10/749,366
Response to Office Action Dated October 18, 2007

30-32. (Canceled)

33. (original) The disposable garment of claim 20, wherein the disposable garment has a longitudinal direction wherein the stretchable outer layer has a length in the longitudinal direction, the elastic inner layer has a length in the longitudinal direction and the stretchable outer layer length is greater than the elastic inner layer length.

34. (original) The disposable garment of claim 20, wherein the disposable garment has a lateral direction wherein the stretchable outer layer has a width in the lateral direction, the elastic inner layer has a width in the lateral direction and the stretchable outer layer width is greater than the elastic inner layer width.

35-36. (Canceled)

37. (Currently Amended) A disposable absorbent garment having a garment length, the disposable absorbent garment comprising:

an outer layer;

an elastic inner layer, wherein the elastic inner layer has an elastic inner layer perimeter and wherein the elastic inner layer defines an opening located in an internal position to the elastic inner layer perimeter and wherein the opening is a slit or aperture through a bodyfacing surface of the elastic inner layer layer and wherein the opening has a length that is 10% to 90% of the garment length;

wherein the elastic inner layer perimeter is bonded to the outer layer;

wherein the outer layer and the elastic inner layer form a front waist region, a back waist region and a crotch region, wherein the crotch region connects the front waist region and the back waist region and the elastic inner layer has a width at a narrowest portion of the crotch region of equal to or less than 4 inches; and

an absorbent assembly positioned between the outer layer and the elastic inner layer, wherein the absorbent assembly includes a topsheet layer, a core layer and a barrier layer.

K-C Docket No. 19,288

Serial No. 10/749,366

Response to Office Action Dated October 18, 2007

38. (original) The disposable absorbent garment of claim 37, wherein the outer layer has an outer layer perimeter and the elastic inner layer perimeter is bonded to the outer layer perimeter.

39. (Canceled)

40. (original) The disposable absorbent garment of claim 37, wherein the outer layer is elastic.

41. (Canceled)

42. (Canceled)

43. (original) The disposable absorbent garment of claim 37, wherein the outer layer has one or more pleats.

44-45. (Canceled)

46. (original) The disposable absorbent garment of claim 37, wherein the elastic inner layer is elastic in both a longitudinal direction and a lateral direction of the disposable absorbent garment.

47. (original) The disposable absorbent garment of claim 37, wherein the elastic inner layer is liquid impermeable.

48-50. (Canceled)

51. (original) The disposable absorbent garment of claim 37, wherein the disposable absorbent garment has a longitudinal direction wherein the outer layer has a length in the

K-C Docket No. 19,288

Serial No. 10/749,366

Response to Office Action Dated October 18, 2007

longitudinal direction, the elastic inner layer has a length in the longitudinal direction and the outer layer length is greater than the elastic inner layer length.

52. (original) The disposable absorbent garment of claim 37, wherein the disposable absorbent garment has a lateral direction wherein the outer layer has a width in the lateral direction, the elastic inner layer has a width in the lateral direction and the outer layer width is greater than the elastic inner layer width.

53-54. (Canceled)

55. (original) The disposable absorbent garment of claim 37, wherein the disposable absorbent garment has a longitudinal direction and a lateral direction and wherein the absorbent assembly is attached to the outer layer along a lateral centerline of the absorbent assembly.
